

# We Can Help **Fast Track** Your Contracting Process

## About **US**

Ntracts delivers a comprehensive contract management solution through a unique combination of healthcare, technical, and legal expertise matched with a user-driven online contract management solution that mitigates compliance risk, achieves cost savings, improves efficiency, and ensures healthcare organizations stay in front of changing regulations. Our experts certified in healthcare compliance can help you.

**NTRACTS** 

When time is of the essence, Ntracts Fast Track Workflow allows for contracting in 3 simple steps. This allows visibility into your contracting process and ensures compliance with regulatory and organizational requirements.

## The Process

### 1 Intake

Ntracts simplified contract intake form allows you to capture documents and key data details so stakeholders have all the information necessary to quickly make informed, critical business decisions.

### 2 Review

By incorporating a controlled review and approval process, Ntracts streamlines the contract request workflow, providing the right information to the right person, without delay - reducing time and effort.

### 3 Signatures

Integration of an industry leading eSign platform decreases the amount of time it takes to obtain signatures. Post execution, information is managed within the Ntracts solution fully supporting comprehensive contract management.
